

ETAWA STRENGTHENS THE WIEDEMANN GROUP.

The Wiedemann Group continues to grow:

As of June 1, 2026, ETAWA Edelstahltechnik für die Wasserwirtschaft GmbH has become part of the Wiedemann Group's network of specialized companies.

Based in Zwickau, ETAWA specializes in stainless steel and metal fabrication, with a strong focus on solutions for drinking water facilities and infrastructure.

By joining forces, we combine expertise in drinking water reservoir rehabilitation, stainless steel engineering, HDW surface preparation of concrete and steel, structural rehabilitation, and refurbishment of existing structures. Together, we create new opportunities for our customers, projects, and sustainable growth.

Together, we stand for quality, technical expertise, and reliable solutions for industry, construction, utility infrastructure, and water management.

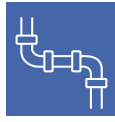

ETAWA SERVICES

DRINKING WATER SUPPLY

Equipment and components for safe and sustainable drinking water supply systems.

PIPELINE CONSTRUCTION

Professional pipeline construction solutions for industrial, commercial, municipal, and food-processing facilities.

WASTEWATER SYSTEMS

Systems and components for the reliable transport and treatment of wastewater.

STAIRS, DOORS & LADDERS

Robust and durable constructions for industrial and construction projects.

CUSTOM COMPONENTS & SYSTEMS

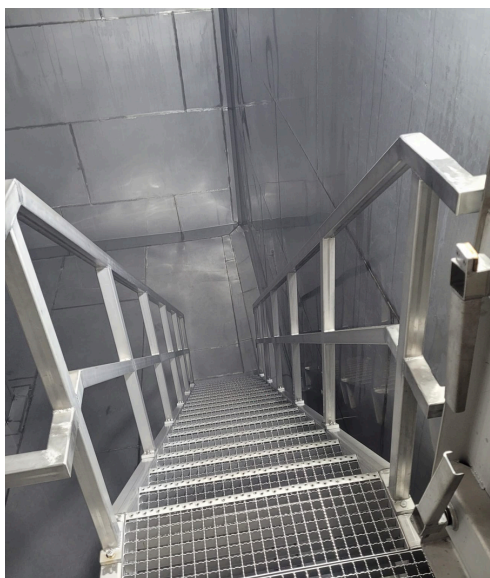

Tailor-made solutions designed to meet specific customer requirements.

CAD PLANNING & PROJECT SUPPORT

Planning and cost estimation support for engineering consultancies and specialist planners.
